

CUTWORK INSTRUCTIONS

1.

Hoop desired fabric and slide one layer of lightweight tearaway underneath. Sew design until cutline stop.

2.

Remove hoop and use small clipping or applique scissors to cut directly on cutline.

3.

Remove cutout hole and reattach hoop to the machine.

4.

Shown - sample of dissolving fabric, (e.g. H2O Gone, Aquamagic). It is not recommended that dissolving plastic be used, (e.g. Solvy).

5.

Slide dissolving fabric under hoop to completely cover cutout hole.

6.

Continue sewing design to finish.

CUTWORK INSTRUCTIONS

7.

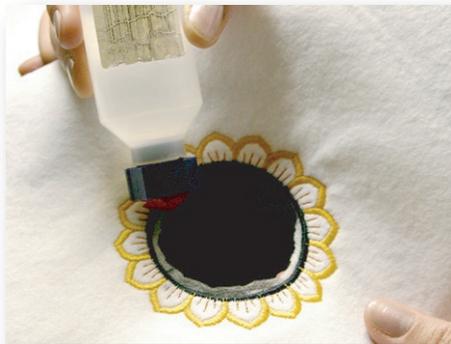

Remove hoop from machine and cut away excess dissolving fabric.

8.

Design shown with excess fabric cut away.

9.

Remove design from hoop and dissolve fabric. If felt or other non-wettable fabric has been used, spray or soak dissolving fabric only. We are using an envelope-sealing sponge bottle in example shown.

10.

FINISHED!
