

# FREESTANDING EMBROIDERY INSTRUCTIONS

1.

Hoop 2 layers of dissolving stabilizer fabric.

2.

Sew entire design.

3.

Cut excess stabilizer from around edges of design. Save all scraps of dissolving stabilizer for other projects.

4.

Rinse away remaining dissolving stabilizer following manufacturer's instructions.

5.

Dry flat by laying under 1 or 2 heavy books. Be sure that the design is thoroughly dry before using on project.

## TIPS:

Multi-layers of stabilizer will ensure perfect results.

Dissolving FABRIC stabilizer is the best product for this technique.
